

# MARCH

From the classroom of: 3's & Private 4's

## During March We Will . . .

- ★ We will begin "**The Balls Study**" where the students will be expanding their knowledge as well as understanding various shapes, types, and sizes of balls.
- ★ In math, we will focus on measuring, sorting, comparing, and counting.
- ★ In language and literacy, we will discuss the following vocabulary words: circumference, measure, rubber, plastic, hollow, solid, dribble, bounce, distance, farther, speed, firm, ball pump, and texture. Students are encouraged to pretend to read independently as well as with a peer.
- ★ In Discovery students will be sorting, investigating, testing our ideas and conducting experiments.

## Helpful Hints and Friendly Tips

- ✚ We encourage you to come in and volunteer in your child's classroom.
- ✚ Please encourage healthy eating habits at home/school. Introduce new foods, include more fruits and vegetables in their diet. It is extremely important for their growth and development.
- ✚ Please talk to your children about **manners and behavioral expectations** while at school. Speak with your child about the importance of listening and following directions with all the adults in their life.

## Classroom Needs & Reminders

- ★ Students/Families should read every night and use the reading log to record the books. Our goal is for each child to read at least 200 books.
- ★ Please bring family photos for our classroom family tree.
- ★ Parents as we enter further into the school year our supplies are low. Therefore, we have created a wish list and you are free to donate whatever you can!
- ★ **Wish List**
  - Tissue
  - Velco
  - Dry erase markers
  - Small toys for the treasure chest
  - Laminating paper

## Upcoming Events

**Easter Egg Hunt**  
**March 28<sup>th</sup> @ 3pm**
